Onderwerp: ECOL Questions for clarification

I received the following yesterday. I think we can finalize the supporting details as well. I will require the completed supporting documents that we have used to compare and review to arrive at the outcome of our MRA. It's all in the details.

Let me know if there is anything missing...Fraser

Attached is the follow up you have requested for Fraser Cocks.

Topic	Is it covered?	How this topic is covered	Other Notes
Boom Deflection	Yes	a. In load chart class b. General crane theory c. Practical exercises- lifting a heavy load and working with long boom.	
Environmental Protection - Ground	Yes	a. General crane theory b. Site-specific applications.	
Oil and contaminants mitigation	Yes	a. In crane theory b. Discussed in practical exercises	
Traction issues	Yes	a. General crane theory b. Site-specific applications.	
Hazards - Changing environmental (weather)	Yes	a. In load chart class b. Practical exercises c. General crane theory	
Overhead power lines	Yes	a. OHS WorkSafeBC Regulation training b. General crane theory c. External training	We have a specialized training provide deliver hydro electrical safety training at our campus.
Obstacles	Yes	a. Practical exercises b. General crane theory	The water bucket and zig- zag practical exercises assists with this lesson.
Multi crane operations (overlapping work space), etc.	Yes	a. Mathematical theories for sharing the load and discovering the center- of-gravity.	This is a 3 rd YR topic.

		b. Practical exercises (2- crane lift exercises) c. Practical exercises (Overlapping spaces)	
--	--	---	--

Please contact me if you have any questions.

Cheers,

Mark McGregor, MA (Leadership), RSE
